ABOUT ME

I am a third-year Computer Science student with a strong interest in software engineering and full-stack development. Building practical applications, learning new technologies, and turning ideas into working solutions. I am detail-oriented, motivated to improve my skills, and eager to gain hands-on experience in a real-world development environment.

WORK EXPERIENCE

MhobFinder - University Project 2025 - PRESENT

Team Leader & Backend Developer

- Designed the project master plan and clearly defined the project scope and requirements
- Led, mentored, and coordinated a full-stack development team to ensure timely and high-quality delivery
- Developed and maintained backend services, APIs, and database integration, while also contributing to frontend development

MedicTracker - Final Project 14th December 2025

Flutter Mobile Application | CADT

- Developed a Flutter app to manage medication schedules with reminder notifications.
- Used SQLite (sqflite) for local storage of medicines and intake history.
- Designed a versioned database with safe migrations and CRUD operations for medications and history.

Python Flask Project - Mini Project 10th March 2025

Python Project | Thailand, Ubon Ratchathani University

- Developed a Flask web app using Jinja templates for dynamic front-end, supporting user registration, account, and friend profile management.
- Implemented full CRUD for friend profiles with secure authentication, session management, and database integration (SQLite/MySQL).
- Deployed the app on PythonAnywhere for live access and testing.

VOLUNTEERS

Smart Fish Farm Technologies - Volunteer 3rd February 2024

Smart Innovation | Thailand, Sirindhorn

- Assisted in developing Arduino-based smart fish farming systems and monitored water quality (temperature, pH, turbidity) to ensure optimal fish health.

EDUCATION

Bachelor Degree of Computer Science 2024 - present

Software Engineering | Cambodia Academy of Digital Technology (CADT)

Bachelor Degree of English Language (Since 2019)

School of Language | Graduate at BELTEI international school
